# CHIRAL INDIA 2018

7<sup>th</sup> International Conference & Exhibition

Oct 25-26 2018, Ramada Plaza Palm Grove, Juhu, Mumbai

Chiral India 2018, "**The business of chirality: Contemporary and complementary technologies**" will highlight the latest advances in chiral drug development and also explore many dimensions of contemporary chiral systems and complementary technologies for new drug design and development. In an attempt to highlight the power of chirality it will also highlight how chiral chemistry and tools are shaping new crop protection actives and advanced materials.

Chiral India 2018 will deliberate on the following strands:

- Biocatalytic tool box for chiral synthesis
- Flow chemistry for optimisation of chiral drug synthesis
- Novel chiral separation technologies
- Innovative asymmetric synthesis
- Overview of chiral manufacturing technologies
- Combinatorial catalysis in high-throughput screening
- New approaches to chiral drug design (synthetic and biological)

Internationally reputed chiral experts from across the world, and India will share path breaking advances in chiral drug development.
